## **Mission Statement**

We believe the sport of tennis should be fun, and that it is a game to be played for a lifetime! The staff of the Performance Tennis Academy will teach life lessons such as character, honesty, integrity, self-reliance and independence. We further believe that it is essential that students develop equal skill proficiency in all areas of the court (i.e. backcourt, mid-court, and net). Finally, it is our goal to teach percentage strategy and tactics for both doubles and singles play and to aid each student in developing a game style consistent with their strengths.

## **Sign-Up Form**
